TELEPHONE CALL, 821, 39TH STREET.

To the Medical Profession of the City of New York :

The undersigned has introduced a new feature in the *Drug Business*, with the view of establishing a more perfect system in the dispensing of physicians' prescriptions, and of securing the greatest degree of excellence in this department.

He has separated the *Pharmacy proper* from the purely mercantile portion of the business, removing the former to the adjoining store on 34th St., which has been fitted up in the most approved manner adapted to the requirements of to-day.

He has also inaugurated a more complete system of assaying and analyzing drugs and chemicals as they come into requisition in the pharmacy.

The Medical Profession as well as pharmacists are cordially invited to inspect this pharmacy in the details of its work, which will at all times be shown with pleasure.

The undersigned further tenders his services to the profession in such experimental and analytical work as may be required.

Very Respectfully,

EMLEN PAINTER.

The vital principles of Beef concentrated. A highly condensed Raw Food Extract. Acceptable to the most delicate taste and smell. It does not become putrid, as ALL OTHER raw foods do. Retained by irritable stomachs that reject all other Foods. It assimilates more readily than any other food known to the Medical Profession. Bovinine, under the microscope, shows the blood-corpuscles in their normal conditions strongly marked, while in other Foods or Extracts this vitally important element is destroyed by the action of heat in cooking.

In all disturbances of the intestinal tract accompanied by gastric irritation; in cancer of the stomach or rectum; in supplying the waste of albuminuria; in the marasmus of infancy or old age; in scrofulous conditions; in phthisis, and in so-called dyspeptic conditions, Bovinine will be found of signal service, securing better nutrition and assimilation, and alleviating the conditions present. Bovinine is a *raw food* and is neither partially nor wholly digested, so that, when given in cases of enfeebled digestive powers, it does not still further increase the liability of the gastric forces to perform their work, but restores them by its physiological stimulation to their normal effectiveness.

This preparation is advertised in medical journals only, and is carefully prepared by the

PEPTONISED MILK.

(FAIRCHILD PROCESS.)

The Ideal Food for the Sick, the Delicate, the Consumptive, the Habitual Dyspeptic, the Diabetic.

Peptonised Milk is milk in which the caseine has been wholly or partially converted into *peptone*, the degree of this conversion to be controlled at will, as determined by the needs of the case. All the other elements of the milk, the sugar, fat, and mineral salts, are already provided by nature in a condition for perfect assimilation, *without digestive effort.*

ONE PINT OF MILK, when peptonised, contains two OUNCES OF TOTAL DRY SOLIDS—MILK PEPTONES, MILK SUGAR, FAT and ASH.

Of BEEF TEA, DR. CHRISTISON says: "He was able to obtain but a *quarter of an ounce of solid residue in a pint.*"

This solid residue consists of "besides the trifling amount of proteid material and of fat (which latter, in practice, is guarded against with great care), *only the salts of the muscle*, the *hematin* and *allied pigments*, *traces of sugar*, perhaps, *some lactic acid*, and the nitrogenous extractives *creatin* and its *congeners*. As the original half pound of muscle may contain about forty to sixty grains of the salts, and ten to twelve grains of the nitrogenous waste products, the beef tea (half pint) certainly contained no more." —PROF. BAUMGARTEN.

Of BEEF EXTRACT, DR. PAVY says: "There are grounds for believing that a considerable proportion consists of products of proteid decay, materials in course of retrograde metamorphosis, that are of no use as nutritive agents."

The well nigh superstitious idea entertained by the *laity* of beef tea, is expressed in the allusion to the "*strength*" which is popularly supposed to be extracted in the tea; after which the *beef* is thrown to the dogs. The workingman makes soup from a joint and consumes the "strength" and the *beef* both.

The medical profession insist that patients shall profit by the knowledge and progress of medical science, by the use of artificially digested fresh milk, etc. The Nostrum advertisers usurp the functions of the physician by prescribing fictitious "foods for invalids," foods which medical science has long since condemned.

PEPTONISING TUBES

In boxes of 1 dozen tubes, at 50 cents retail. Each tube peptonises one pint of milk. Pamphlets and samples gratis to physicians.

ESSENCE OF PEPSINE.

(FAIRCHILD.)

A SOLUTION OF THE ESSENTIAL ORGANIC INGREDIENT OF THE GASTRIC JUICE, EXTRACTED DIRECTLY FROM THE PEPTIC GLANDS OF THE STOMACH.

THIS Essence of Pepsine is highly recommended where a fluid and agreeable form of pepsine is desired. It is especially eligible for administration to infants in vomiting and indigestion. It contains but a slight trace of acid, not perceptible to the taste; *whenever this is indicated, the proper acid can be added, and in the amount required.* The very decided acidity invariably found in the ordinary wines, elixirs, etc., of pepsine, is of very questionable utility therapeutically. It is certain that there are cases, especially of children, in which acid is not only undesirable, but positively hurtful.

A teaspoonful just before or after food will be found to aid digestion and assimilation; also, recommended at any time when suffering from indigestion. In the occasional distressing attacks to which chronic dyspeptics are subject, a few doses will afford the most happy relief.

FAIRCHILD BROS. & FOSTER,

NEW YORK. LONDON.

The Fairchild Digestive Tablets

OF THE

PEPTIC AND PANCREATIC FERMENTS.

The special value of these Tablets lies in their convenience, accuracy, and agreeability of dosage. They are dispensed in small vials, which may be conveniently carried in the pocket, and are thus available at such intervals prior to or during the progress of digestion as may seem best to the prescriber.

By this means, pepsine, for instance, may be exhibited in small doses at frequent intervals after the ingestion of food—a rational method of reinforcing the peptic digestion.

The pancreatic ferments may be thus given before meals, or after the gastric activity has diminished, and thus the best results may be, upon accepted physiological grounds, reasonably anticipated in the treatment of intestinal indigestion.

Both peptic and pancreatic tablets are made in such combinations as are found most serviceable and proper by practitioners.

Pepsine and Bismuth may be especially referred to as being a perfectly compatible preparation; as in this combination we have sub-nitrate of bismuth which is not open to the objections made against ammonio-citrate, the salt of bismuth resorted to in liquid preparations of "pepsine and bismuth."

The Compound Pancreatic Tablets are well thought of in the treatment of intestinal indigestion, being especially devised for this purpose—containing 2 grains of Pancreatic Extract, 3 grains Squibb's bismuth sub-nitrate and 1-10 grain powdered Ipecac in each Tablet.

Complete lists and descriptions will be cheerfully sent upon application.

THE NEW ANTIPYRETIC AND ANTINEURALGIC

PHENACETINE-BAYER.

"It is the best antipyretic and antineuralgic in use to-day, and I use no other."—W. C. WILE, A.M., M.D.

Phenacetine-Bayer (Para-Acetphenetidine) is a white, glossy, crystalline powder, perfectly tasteless, melting at 135° C.=275° F., and has the composition $C_6H_4 <^{O.C_2H_5}_{NH\,(CO—CH_3)}$.

It is slightly soluble in water, a little more soluble in glycerine, but most freely in alcohol.

Phenacetine-Bayer was first prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, and is of absolute purity and uniform quality.

Summarizing the superiority of Phenacetine-Bayer over other antipyretics and antineuralgics, the following conclusions are formed :

1. **Phenacetine-Bayer is an efficacious antipyretic.**
2. **It does not develop any disagreeable or noxious after-effects.**
3. **The dose required is half that of Antipyrine.**
4. **It is perfectly tasteless.**
5. **On account of its innocuousness and tastelessness, it is a valuable antipyretic both in adults and in children.**
6. **Phenacetine-Bayer is an important antineuralgic; its effect is more energetic than that of Antipyrine and does not cause lassitude or any other disagreeable symptoms.**

Our pamphlet on Phenacetine-Bayer, containing the valuable testimony of eminent physicians, will be mailed on application.

Phenacetine-Bayer (Para-Acetphenetidine), prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in one ounce vials and also in the form of our soluble pills, containing two, four, and five grains each.

Quinine Chocolates

(REGISTERED IN U. S. PATENT OFFICE.)

THE Chocolate used in the preparation of these tablets disguises the bitter taste of the Quinine without, in the least, impairing its therapeutic value. They are suitable in the entire range of conditions where Quinine is indicated, but are especially recommended in the sub-acute and chronic forms of malaria, characterized by headache, neuralgia, loss of appetite, and general *malaise*. They are quite palatable to children, and, for this reason, will be found invaluable in entero-colitis, and other spring and summer complaints ; or, as a restorative tonic in all cases of debility. The Chocolates are unequalled as an elegant and reliable prophylactic for persons residing in or passing through malaria districts. Each tablet contains one grain of tannate of quinine ; the dose, therefore, ranges from one or two daily, to a dozen or more, repeated as often as necessary, according to circumstances, or as directed by a physician.

The duration of human pregnancy is about 275 days. This is subject to some variation, and the longest period is still undetermined. As labor occurs in the larger proportion of cases between 270 and 290 days from the last menstruation, it is usual to reckon either from the first or last day of this period, taking as the mean 280 days, or a little over nine calendar months. For this approximate calculation the first day of the menstrual period may be used as being more readily ascertained. The table presents at a glance the beginning and end of 280 days for every day of the year. Find the date of menstruation in the upper line of the horizontal row, and the figure below, with the corresponding month, will indicate 280 days. In leap year, if the period of pregnancy includes February, the time for labor will be one day earlier than that given in the table.

ABSTRACT OF THE MEDICAL LAW OF 1887

§ 2. From and after the date of the taking effect of this act, no person not theretofore licensed or authorized to practise physic or surgery in this state shall be deemed so licensed or authorized except one of the three following classes:

First. All who shall have been graduated from an incorporated medical school or college in this state with the degree of doctor of medicine, after substantial compliance with all the requirements of the general laws and of the charter of said corporation regulating the term and amount of study, attendance and attainment requisite to obtain said degree; provided that no person shall receive the degree of doctor of medicine, or be licensed to practise physic or surgery in this state unless after the age of eighteen he shall have pursued the study of medical science for at least three years, in a chartered medical school or with some physician or surgeon duly authorized by law to practise physic or surgery; and shall have attended two complete courses of lectures in some legally incorporated medical school or college, in good standing at the time of such attendance, prior to the granting to him or her of a diploma or license; provided, further, that two courses of lectures, both of which shall be either begun or completed within the same calendar year, shall not satisfy the above requirement.

Second. All who have received said degree from the regents of the university of the state of New York, after substantial compliance with the legal requisites preliminary to its attainment, and after examination by a legally constituted board of medical examiners of this state.

Third. All who, having been graduated from incorporated medical schools or colleges without the state as doctors of medicine, or licensed to practice physic or surgery under the laws of those European countries in which said degree does not confer the right so to practise, shall procure their diplomas from said corporations or their licenses from such countries, to be indorsed by the faculty of an incorporated medical school or college within this state, or by the regents of the university on the recommendation of a legally constituted board of medical examiners of this state. Every such indorsement shall be in form of schedule A or of schedule B provided by the tenth section of this act. Every corporation or board so indorsing shall keep a record of their indorsements, and may require applicants to verify their statements under oath; any indorsement made with fraudulent intent, or gross carelessness or ignorance, shall be deemed a misdemeanor, and shall subject the indorser or indorsers, upon conviction thereof, to a fine of two hundred and fifty dollars.

§ 3. Every person who, at the time this act shall take effect, shall be practising lawfully physic or surgery in this state, under the authority and license conferred by the laws then in force, but who shall not be then duly registered in the county where he or she practises; and every person who shall thereafter become lawfully authorized or licensed to practise physic or surgery in this state shall register in a book to be kept in the clerk's office of the county in which such practise is carried on, his or her name, residence, place and date of birth, and authority for practising as aforesaid.

§ 4. A practising physician or surgeon, having registered lawful authority to practise physic or surgery in one county, who shall remove his practice or part thereof to or regularly engaged in practice or open an office in another county, shall exhibit in person to the clerk of such other county, or shall send to him through the mail by registered letter his certificate of registration, and if such certificate shows lawful authority to have been registered, said clerk thereupon shall register said applicant in said latter county, on receipt of a fee of twenty-five cents.

§ 6. No person shall be licensed or permitted to practise physic or surgery in this state who has been convicted of a felony by any court of competent jurisdiction; and if any person who is or hereafter shall be duly licensed to practise physic or surgery in this state shall be convicted of a felony, as aforesaid, his or her license to so practise, if any, shall be revoked by the fact of such conviction having been had. Any person who shall willfully swear falsely to any statement contained in any affidavit made pursuant to the provisions of this act shall be deemed guilty of a felony, and subject to conviction and punishment for perjury; any person who falsely and without authority shall counterfeit, make or alter any diploma, certificate or instrument constituting a license to practise physic or surgery within this state, or any certificate or indorsement given in pursuance of this act, shall be deemed guilty of a felony, and be subject to conviction and punishment for forgery in the second degree; any person who shall practise physic or surgery under a false or assumed name, or who shall falsely personate another practitioner of a like or different name, shall be deemed guilty of a felony, and shall be subject to conviction and punishment for false personation; and any person guilty of violating any of the other provisions of this act, not otherwise specifically punished herein, or who shall buy, sell or fraudulently obtain any medical diploma, license, record or registration, or who shall aid or abet such buying, selling or fraudulently obtaining thereof, or who shall practise physic or surgery in this state under cover of a diploma or license that shall have been illegally obtained, or that shall have been signed or issued unlawfully or under fraudulent representations, or mistake of fact in material regard or who, after conviction of a felony, as aforesaid, shall attempt to practise physic or surgery in this state, and any person who shall assume the title of doctor of medicine, or append the letters "M.D." to his or her name, without having received the degree of doctor of medicine from some school, college or board empowered by law to confer said degree or title, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than two hundred and fifty dollars, or imprisonment for six months for the first offence, and upon conviction of a subsequent offence, by a fine of not less than five hundred dollars or imprisonment for not less than one year, or by both fine and imprisonment. Any person who, not being then lawfully authorized to practise physic or surgery in this state and so registered according to law, shall practise on or after the first day of October, eighteen hundred and eighty-seven, physic or surgery within this state without the license and registration provided for in this act, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not less than fifty dollars for the first offense, and for each subsequent offense by a fine of not less than one hundred dollars, or by imprisonment for not less than one hundred days, or by both fine and imprisonment.

§ 8. Nothing in this act shall be construed to punish commissioned medical officers serving in the army or navy of the United States, or in the United States marine hospital service, while so commissioned, or any one while actually serving as a member of the resident medical staff of any legally incorporated hospital, or any legally qualified and registered dentist exclusively engaged in practising the art of dentistry, or interfere with manufacturers of artificial eyes, limbs or orthopedical instruments or trusses of any kind from fitting such instruments on persons in need thereof; or any lawfully qualified physicians and surgeons residing in other states or countries meeting registered physicians and surgeons of this state in consultation, or any physician or surgeon residing on the border of a neighboring state, and duly authorized under the laws thereof to practise physic or surgery therein, whose practice extends into the limits of this state; providing that such practitioner shall not open an office or appoint a place to meet patients or receive calls within the limits of the state of New York; or physicians duly registered in one county of this state called to attend isolated cases in another county, but not residing or habitually practising therein.

KRESS'

Acidulated Liquid Pepsine.

Practitioners who have used and prescribed this Liquid Pepsine, have always been pleased with the prompt action of this preparation.

Being made *directly from the mucus of the stomach* without heat or evaporation, it presents

PURE PEPSINE IN ITS ENTIRE ACTIVITY,

in combination with its natural solvent (Hydrochloric Acid).

By an improved process we can now furnish an odorless and colorless Liquid Pepsine that will keep and not deteriorate with age.

SAMPLES ON APPLICATION.

KRESS & BEHRENS,

Corner 52d Street, **1670 Broadway.**

Please specify: *Liquor Pepsini Acidulatus Kress.*

NATURE'S REMEDY.

Thompson's Bromine-Arsenic Spring Water.

From Ashe County, N. C.

The Composition of this Water is given on this page, see below. We ask the profession to examine it and say whether or not they know of any spring's or well's water that suggests so many important uses in medicine. It is especially valuable in

Cutaneous and Glandular Diseases.

Such as Chronic Eczema, etc., and even what appeared to be

Malignant Ulcers and Sores

have been cured by its free use.

It is distinctly and powerfully

Alterative and Tonic,

As attested by many cases of cures for *Gout, Chronic Rheumatism, General Debility, Sore Throat, etc.*

No water can show better results in *Dyspepsia,* in most of its forms; *Chronic Dysentery* and *Diarrhœa,* as well as *Torpid and Debilitated Conditions of the Bowels Generally;* also *Liver Complaints and Kidney Diseases, etc., etc.*

For Nervous Prostration of Brain Workers, Business Men, etc., and for women broken down in general health, etc., it is *particularly valuable.* No water acts better in relieving cases of *Nervous Insomnia, Nervous Excitability or Irritability, Nervous Depression, Loss of Appetite,* etc.

For Persistent Nausea, *Debilitated Condition of the Stomach, Derangements of the Kidneys and Bladder, Exhausted Vitality,* etc.

For Diseases Peculiar to Females—*Such as Ovarian Irritation and Dysmenorrhœa, Amenorrhœa, Menorrhœa, Leucorrhœa* of various forms, *Pudendal Itching, Catarrh of Head or Larynx,* etc.

For Pamphlets address L. W. BURWELL, G. M., Richmond, Va.

The purposes of these Schools are :

I.—To counteract, as far as possible, the ill effects produced upon the public minds by Massage and Swedish Movement "cure" charlatans, whose incompetency has gone far to disgust the medical profession and to mislead others in regard to the real therapeutical advantages of the art.

II.—To put into this field of auxiliary usefulness a class of systematically trained male and female operators of good moral character and possessing all the NECESSARY requisites of health, disposition, physique, and training. A Certificate of qualification is granted to successful graduates by the instructor and signed by not less than two medical men, constituting a Committee of Examiners.

III.—To offer advantages to ladies and gentlemen desirous of acquiring some knowledge of the art themselves for use in their own families, *or for having their maids or valets taught.*

THE PRELIMINARY SESSION will begin on Wednesday, Sept. 25th, 1889.

THE REGULAR WINTER SESSION will begin Oct. 2d, 1889, and end about March, 1890.

UNIVERSITY BIOLOGICAL AND PATHOLOGICAL LABORATORY.—The Faculty, aided by generous friends, have enlarged the New Laboratory Building and established a Biological and Pathological Laboratory in connection with its Laboratory of Chemistry and Materia Medica. It is furnished with all the apparatus for the study of Bacteriology, and for special lines of investigation.

In addition to the ordinary clinics, *special clinical instruction*, WITHOUT ADDITIONAL EXPENSE, will be given to the candidates for graduation during the latter part of the Regular Session.

Each of the seven Professors of the Regular Faculty, or his assistant, will conduct a recitation on his subject one evening each week. Students are thus enabled to make up for lost lectures, and prepare themselves properly for their final examination without additional expense.

THE SPRING SESSION will begin about the middle of March and end the last week in May. The daily Clinics and Special Practical Courses will be the same as in the Winter Session, and there will be Lectures on Special Subjects by members of the Faculty.

FEES.

For course of Lectures	$140 00

Plain Absorbent and Medicated Cottons, Jute Wools, Oakum, etc.

PURIFIED HOSPITAL AND ABSORBENT GAUZE,

FREE OF ORGANIC IMPURITIES.

Bichloride Hospital and Absorbent Gauze.

Warranted, if protected from direct sunlight, not to decompose; thoroughly antiseptic; with the bichloride easily soluble in liquids or effusions. The slightest decomposition manifests simultaneously by a bleaching of the reddish color.

BORATED COTTON AND GAUZES

Contain the boric acid in solution with glycerin and apparently as a boro-glyceride. The extensive use of boric acid for preserving, and the more recent introduction of boro-glycerite for preserving subjects and parts, should warrant its antiseptic property. The valuable cleansing and detergent properties of *these* boric acid dressings deserve attention. ***Absolutely permanent.***

IODOFORM GAUZES, 7½, 10, 33 and 50%.

In the criticism of ***Iodoform*** it seems to have been overlooked that no antiseptic can act except in solution, and that culture jelly rather imbeds iodoform. It sterilizes blood in the incubator at 98 easier and better than without. Its effects from absorption are well known.

Sticky Iodoform Gauze to order only.

All decompose from light.

COMBINED DRESSINGS OF BORATED COTTON WITH BICHLORIDE GAUZE FOR WOUNDS, WITH IODOFORM GAUZE 7½ or 33% FOR INDOLENT ULCERS, INSURE THE ADVANTAGES OF DRY DRESSINGS WITHOUT PROTECTIVES.

BORATED WOOL WADDING,

GENTLEMEN :—The case of your wines sent to me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very respectfully, **L. WOLFF, M.D.,**
Demonstrator of Chemistry, Jefferson Medical College.

TARRANT'S

Effervescent

Seltzer Aperient

An Efficacious and Palatable Aperient.

SPECIALLY INDICATED IN

Diseases of the Stomach, Liver, and Spleen, in Dyspepsia accompanied by Acidity, Irritation of the Stomach, Heartburn, Sick Headache.

A VALUABLE SALINE FOR PATIENTS OF

RHEUMATIC OR GOUTY DIATHESIS.

PARTICULARLY ADAPTED FOR USE IN THE

Constipation of Pregnancy.

In addition to its aperient and antacid qualities, it proves to be an admirable vehicle for the administration of Tincture of Iron, Salicylic Acid, the Salicylates, Citrate or Carbonate of Lithia, etc.

As readily taken by the smallest child as by the adult, it produces, when exhibited in full dose, free evacuation without unnecessary disturbance of the system, and is believed to be the best remedy of its class ever presented to the profession.

SPECIMEN CLAIM.

On December 1st, 1888, Dr. Frederick Leggenhagger, of Utica, N. Y., while attending a patient suffering from diphtheria, was scratched by a pin concealed in the patient's clothing. The injury in itself was trivial. Septic matter was, however, introduced at the time of the injury, blood poisoning ensued, and the doctor died on **December 4th,** only three days after the accident. Proofs were presented to THE TRAVELERS, of Hartford, for the principal sum under an Accident Policy for **$15,000** which he held in that company, being received at the home office on the forenoon of **December 19th,** and on the afternoon of the same day a check for the full amount was mailed to the beneficiary.

RATES.

$5,000 in case of accidental death, and $25.00 per week, costs $25.00 per year.

$10,000 in case of accidental death, and $50.00 per week, costs $50.00 per year.

LACTOPEPTINE.

The most important Remedial Agent ever presented to the Profession for

DYSPEPSIA, VOMITING IN PREGNANCY, CHOLERA INFANTUM, CONSTIPATION, AND ALL DISEASES ARISING FROM IMPERFECT NUTRITION.

LACTOPEPTINE precisely represents in composition the natural digestive juices of the Stomach, Pancreas, and Salivary Glands, and will, therefore, readily dissolve all foods necessary for the recuperation of the human organism.

LACTOPEPTINE

IS COMPOUNDED WITH

GENTIAN, IRON, STRYCHNIA, BISMUTH, QUINIA, CALISAYA, CINCHONA AND PHOSPHATES,

and various medications required in general practice, in the form of ELIXIRS, SYRUPS, LIQUIDS, ETC.

SPECIAL NOTICE TO THE MEDICAL PROFESSION.

Whenever satisfactory results are not obtained from the administration of Lactopeptine, we will consider it a favor if such facts are reported to us, for there can be no doubt that substitution of Pepsin or some of the cheap imitations of Lactopeptine has been practised, wherever the therapeutic activity of Lactopeptine is not uniformly demonstrated in its indications.

THE SUSTAINED SUPERIORITY

OF

FAIRCHILD'S PEPSIN

IN ACTIVITY, PERMANENCE, AND GENERAL EXCELLENCE

has won for this product a wide use and recognition in all the principal markets of the world.

We guarantee it to be unchangeable, to maintain its activity and quality under all ordinary commercial conditions; it is therefore by far the most available for the dispensing counter, as well as in the manufacture of every proper form of pepsin preparations.

Under exactly parallel conditions with any proper percentage of acidity, and with any proportion of such acidulated water to the albumen, Fairchild's pepsin is positively superior to any pepsin known.

It will under absolutely comparative conditions, grain for grain, digest more albumen than any other pepsin made.

We will be pleased to send samples to any physician who may wish to ascertain for himself the relative activity of Fairchild's pepsin, or to submit it to any practical trial.
